WA L&I EDI Announcement

Date: March 31, 2017

Re: Changes to Medical Requirements tables for the WA Electronic Data Interchange (EDI); New Version (V1.3, revised and posted 3/31/17, effective 4/12/17)

Please forward this announcement to the person in your company who oversees your workers' compensation medical bill data reporting in Washington State.

We have updated L&I's Medical Requirements tables. The updated version (V1.3, dated 3/31/17) has been posted and is available for download at https://walniedi.info/. You can find:

- The updated tables under the "Implementation Guide" or "EDI Requirements" links on the left-hand side of the page.
- Detailed information about the changes in the "Requirement Tables Change Log" located near the bottom of the page.

Highlight of changes to the Requirement Tables effective 4/12/17:

- Refer to V1.3 Change Log for specifics of the following examples:
    - Claim Administrator Claim Number (DN0015): Will no longer have edits applied for A-Z, 0-9, or spaces since Third Party Administrators can chose the format
    - Dental Bill submissions for Diagnosis Pointer (DN0557): changes related to the availability of Principal Diagnosis Code (DN0521)
    - DN0682 Facility National Provider ID (DN0682) changed to Mandatory Conditional based on presence of Facility Name (DN0678)

We appreciate the feedback received from registered Trading Partners who are programming and testing. Your input has helped inform these table changes.

For additional information or help, please contact your Support Team for the WA EDI at walniedi@iso.com or visit https://walniedi.info.
